# *PRODUCT INFORMATION*

## *SB-AW Beacon Light*

SB-AW Beacon Light is fitted on to a vehicle for use when the driver wishes to convey to other road users the urgency of their journey, to provide additional warning of a hazard when stationary, or in the case of law enforcement as a means of signaling another driver to stop for interaction with an officer.

These lights may be dedicated emergency lights, such as a beacon or a light bar, or may be modified stock lighting, such as a wig-wag or hide-away light, and are additional to any standard lighting on the car such as hazard lights.
