PRODUCT INFORMATION

SB-AW Nitrile Glove (NBR)

SB-AW Nitrile Glove (NBR) are made of nylon knitted glove and coated whole palm with Nitrile Butadiene Rubber (NBR). This form of NBR is generally resistant to oil, fuel, and other chemicals. They contain no latex proteins and offer superior resistance to many types of chemicals. Unlike other latex gloves, nitrile gloves have low resistance to friction and are very easy to slide on. Widely used in the automotive industry to protect safety and skin of hands with very strong resistance against oil.
