

PRODUCT INFORMATION

SB-AW Canvas Tarpaulin

SB-AW Canvas Tarpaulins are used in many ways to protect properties, vehicles and things from wind, rain, and sunlight. They are used during construction or after disasters to protect partially built or damaged structures, to prevent mess during painting and similar activities, and to contain and collect debris.

Tarpaulin is a large sheet of strong, flexible, water-resistant or waterproof material, often cloth such as canvas or polyester coated with polyurethane or made of plastics such as polyethylene.
