

PRODUCT INFORMATION

SB-AW Delineator Post

Delineator posts are used to alert pedestrians, motorists and drivers to work risks, parking lot traffic control, striping or resurfacing, areas and border limits protect people and to be able to prevent injuries.

Delineators are particularly useful at locations where the alignment might be confusing or sudden, for example at lane-decrease curves and transitions. Delineators are very powerful guidance devices during the night and adverse weather.

An essential advantage of Delineators in specific places is they stay visible when the roadway is wet or snow covered. Delineator posts are considered guidance devices, and may also be used on long continuous sections of highway or through short stretches of road.

Product Benefits:

Features:

1. Trusted brand
2. Direct factory
3. After-sales service

Specifications

Measurement: 120cm x 12cm x 10cm

Weight: 2.2kg
