

## **PRODUCT INFORMATION**

### **SB-AW Safety Helmet**

SB-AW safety helmet are designed to protect the head against falling objects and the side of the head, eyes, and neck from any untoward impacts, bumps, scrapes, and electrical exposure, etc.

SB-AW safety helmet also comes in various colours that signify different roles to the wearers on construction sites. Mostly, supervisors are not familiar with all workers on a construction site. Thus, stickers, labels and markers are used to mark safety helmet so that important information can be shared and transmitted without any delays and glitches. As a result, stickers with company logos are very commonplace in construction sites.

Your requirements set our standard, we provide OEM branding regardless of whether you wish to apply your company logo or require the helmets for a specific event, with the latest printing technology, we can customise helmets to your specifications.
